Texas Medical Center
Houston, Texas 77025

Dear Marge:

I expect you will have heard something from Josh by now, and in any case my information is only tentative -- but so you will know the outcome of the meeting in Palo Alto this week, here is how we ended up.

Eugenics: Osborne or Haller, with the other probably
as discussant

Mutation: Crow with Neel as discussant

Man's Future: Lederberg

We had a meeting that included Motulsky, Graham, Lederberg and me. I think we came up with a good resolution for the society to consider. It will presumably be a topic of discussion Friday evening.

Best wishes and cheers.

Sincerely,

James F. Crow
